

ORGANISATIONAL CHART

JAMES POLYMERS MANUFACTURING CORPORATION

MISSION

James Polymers Manufacturing is dedicated to achieving excellence in plastic injection molding and rubber compression molding processing in the industry by providing quality, service, and competitive pricing to our customers.

We aim to be internationally competitive in the world market by setting milestone that will open a door of opportunities which will be wholly embraced and accepted by the international market and linger the eyes of Filipinos that we can also be a great leader in our own simple ways.

We aim to support long-term economic growth and progress in the regions where we operate, as well as caring for the environment and ensuring sustainable use of natural resources.

VISION

Achieve a profitable and growth-oriented organization satisfying its employees, customers and community through continual improvement.
